Maseru 100
April 2024

The Civil Service of Lesotho

The Establishment List

2023/2024

The Minister of the Public Service is mandated by Section 10(2)(a) of the Public Service Act 2005 to make provision for, among others, policy on the establishment or abolition of departments, sub-departments or offices, and transfer of functions and public officers from one department to another. To this end, the Civil Service Establishment List is issued as a record of the entire civil service complement at the time of reporting, with details of the number, grades and titles of positions per ministry. It also provides a summary report of variations that occurred during the reporting period.

During the entire five (5) year period of the Eleventh Parliament of the Kingdom of Lesotho, the Ministry will strive for improved service delivery through the following strategic objectives:

- Deliver services to the public effectively and efficiently, and
- Strengthen institutions for public service delivery.

In collaboration with other Government Ministries, Departments and Agencies, the Ministry will build ministerial structures that effectively deliver on their respective mandates, while also controlling resource wastage through poor staffing decisions that has resulted in incoherent structures, job and grading anomalies and position redundancies, to mention a few.

Ministries, Departments and Agencies are called upon to approach their establishment needs strategically to ensure that the Government priorities are met with no further strain to the civil service wage bill. The following must be observed at all times;

This Establishment List is for 2023/2024 financial year. It must, however, be used for reference to previous financial years, inclusive of changes captured from 2023/24.

The Ministries are urged to observe that:

- I. All requests for variations as well as funding and filling of positions from ministries, departments and agencies shall be processed in accordance with the Government of Lesotho, Ministry of the Public Service, Civil Service Establishment Management and Restructuring Policy of January 2020
- II. Request for creation of positions should be prioritized and addressed according to the Ministry of the Public Service Circular No: 15 of 2013. Only positions which are critical in achieving strategic objectives will be considered upon abolition of redundant positions.
- III. Funded vacant positions and positions that fall vacant within the current financial year should be filled with the approval from the Ministry of the Public Service.

IV. All unfunded positions will be subjected to strict scrutiny for their relevance in achieving the Government's priorities before approval is granted for budgeting and/or filling.

V. Wage employment will not be allowed except with respect to positions that appear in item 3 of the List.

VI. Ministries departments and agencies are to consult Ministry of the Public Service at the inception of projects which have personnel implications before project agreements are signed between donors and the Government.

Where projects phase out, and the project positions have to be absorbed into the civil service stream, Ministries, departments and agencies are to utilise existing vacancies for creation six months before end of the financial year.

VII. Grading of jobs should be subject to evaluation. Requests for grading should be fully justified. The justification should be accompanied by proof of funding from the recurrent budget and revised job description.

VIII. Changes in the Establishment should be aimed at improving Civil Service Delivery, Productivity and cost -effectiveness.

MAKHOABANE LEDIMO (MRS)

PRINCIPAL SECRETARY

MINISTRY OF PUBLIC SERVICE

Ministry of the Public Service
